## **Interruption of providing battery 3V Lithium CR2 on model CM162EI/CM84E/CM200EI**

We wish to inform you that, due to various shipping problems in the past as well as supply problems, starting 2023, we no longer supply the 3V lithium CR2 battery in our pistols CM162EI, CM84E and CM200EI. This must be purchased separately.

However, we would like to inform you that this information is already in the user's manual that you can download from Repich Sport by scanning the QR code that you find on our red postcard, that you find in the case of pistol, on the back or visit the website [repichsport.ch](http://repichsport.ch). As well as the battery information that should be used on the How it Works page. This information can also be found in the technical pages of the 162/84/200 models on the Morini website.

The presentation postcard is used to show you the new electronics and how it works. For any information you can visit the website [repichsport.ch](http://repichsport.ch)

Bests regards.

Morini Competition Arm SA
